

Privacy in education in the Netherlands

Job Vos – corporate lawyer Kennisnet

Let ict work for education
Laat ict werken **voor het onderwijs**

What is privacy?

Privacy as contextual integrity

People really care when they complain and protest that their privacy has been violated.

Not because of the act of sharing information itself: most people understand that this is crucial to social life.

It is the inappropriate, improper or unknown sharing of information that upsets them.

***'Privacy in context'* by prof. Helen Nissenbaum (2009)**

Privacy in education
