The International Publishers Association (IPA) and the Union of Jordanian Publishers (UJP) are hosting the first of its kind Middle East Publishers Seminar in Amman.

The seminar will take a fresh look at the publishing industry in the region and worldwide to answer the pivotal question—How can reading change the course of history?

A hub for key industry leaders, policy makers, and investors to come together to find solutions to the most pressing challenges we face in the region, the seminar will have an immersive range of activities including keynotes from industry leaders, workshops to improve your business and 10 inspiring panel discussions to join the debate and expand your knowledge. Discussions will include how reading can contribute to socio-economic development; pressing publishing industry issues and scalable solutions; analysis of education and literacy; the use of reading as a humanitarian response and therapy; and the rise of the digital era and the importance it plays in the future of the region.
